

**2016 EAHIL COUNCIL ELECTION - CANDIDATE STATEMENT**

<i>Name</i>	Mr Luc Hourlay	<i>Country</i>	Belgium
<i>Affiliation</i>	Library, The Belgian Health Care Knowledge Centre (KCE), Brussels		
<i>I have worked in (health) library practice</i>	5-9 years	<i>Education</i>	Bachelor's (BSc / BLIS / BA)
<i>My professional education and experience</i>	I graduated in library science and since 7 years now I'm working at the Belgium Health Care Knowledge Center a governmental organisation. In 2016, after having succeeded internal examinations, I became Information manager. From 2000 till 2005 I worked as Librarian for the Belgium Red Cross and I taught at Institute Jean-Pierre Lallemand, a social advancement school for adults. In 2006, I became a Librarian and IT support at Parthages, a small association who works in support of disabled people.		
<i>What I think is special about EAHIL</i>	Sharing knowledge and professional experience through health library is a key element for a right and modern society. EAHIL occupies a central place in this dynamic and helps information workers in this.		
<i>What I expect to contribute to EAHIL Council</i>	Becoming a council member is the occasion to participate at this sharing knowledge. As a beneficiary of this, I'd like to give it in return to our community. It's a great opportunity to support the EAHIL operation and to help designing the future orientation of your association. It's also a good occasion to do some propositions to improve the diffusion of the EAHIL conferences papers, as discussed with some of my Belgian colleagues.		
<i>What I think are the most important issues for European health information professionals in 2017-2020</i>	Sharing, Improvement, Progress, Participation		
<i>My one-line statement for my election campaign</i>	Let's improve together the sharing knowledge
