

## 2018 EAHIL Council Election - Candidate Statement

<i>Country</i>	Iceland	
<i>Name</i>	Anna Sigríður Guðnadóttir	
<i>Affiliation</i>	Landspítali University Hospital The Medical & Health Information Centre Reykjavik, ICELAND	
<i>My professional education and experience</i>	I have a library science degree from the University of Iceland as well as an MPA degree from the University of Iceland as well. I have worked at the Landspítali Medical & Health Info Centre almost my entire work life, or more than 30 years.	
<i>What I think is special about EAHIL</i>	I think it is the venue it provides for professional development and exchange between health care librarians from different European countries.	
<i>What I expect to contribute to EAHIL Council</i>	I expect to add the perspective of a small although technologically advanced country with very few medical libraries.	
<i>What I think are the most important issues for European health information professionals in 2019-2022</i>	Promoting the valuable input a health/medical library service can add to health services in general. Also following closely and participating in discussions on Open Science and Open Access.	
<i>My one-line statement for my election campaign</i>	The only thing you absolutely have to know is the location of the library. -A. Einstein
