Vest-Agder Central Hospital, Medical Library September 1996 - July 1997
<i>What I think is special about EAHIL</i>	The networking and collaboration between European colleagues. EAHIL conferences and workshops have given me a professional boost and they have brought me to exciting European cities that I would probably not have seen otherwise.
<i>What I expect to contribute to EAHIL Council</i>	I hope to contribute to the continued networking and sharing of knowledge and ideas in Europe and the rest of the world.
<i>What I think are the most important issues for European health information professionals in 2019-2022</i>	Contributions to high quality systematic reviews and guidelines in order to improve patient care and public health interventions and reduce research waste. Open access publishing.
<i>My one-line statement for my election campaign</i>	I will work to continue and strengthen the collaboration between Norwegian health librarians and EAHIL.
