

EAHIL Council Election - Candidate Statement	
<i>Country</i>	Estonia
<i>Name</i>	Ivika Rande
<i>Affiliation</i>	Centre of Medical Information, Tartu University Hospital
<i>My professional education and experience</i>	I started working in the Centre of Medical Information in 2012, and since 2017 I'm an information specialist. Currently I'm also acting as the director of the centre. I teach medical information literacy to medical specialists and students of Estonia. I also do literature searches to support medical research and clinicians.
<i>What I think is special about EAHIL</i>	EAHIL offers possibilities to collaborate and share experiences; there is always something to learn from other countries and from librarians with different backgrounds.
<i>What I expect to contribute to EAHIL Council</i>	I hope to make Estonian members of the EAHIL more active to bring our knowledge to the EAHIL.
<i>What I think are the most important issues for European health information professionals in 2019-2022</i>	Because everything is changing and developing so fast, continuous education for librarians is very important. The second important issue, at least from Estonian perspective, is how to get our expertise to medical professionals.
<i>My one-line statement for my election campaign</i>	Let's connect the medical staff and the medical librarians
