

28 JUNE - 2 JULY 2027

Human in the Loop

Health librarians navigating AI, evidence, research and care

How do we ensure that people remain at the centre of information services in an age of artificial intelligence?

Join health librarians, information specialists, researchers, educators, and partners from across Europe to explore the future of AI, evidence, research, and healthcare.

Discover Groningen: an innovative university city known for its research excellence, international community, rich history, and unique cycling culture.

EAHIL 2027: where human expertise meets technological innovation.
