<i>What I think is special about EAHIL</i>	I can access up-to-date information in the field of medical and health sciences librarianship. The association management and all its members are very sincere in sharing their professional knowledge. Within the scope of the association, I can request information from all my colleagues without hesitation.
<i>What I expect to contribute to EAHIL Council</i>	In Turkey, there is an association of medicine and health sciences that we carry out local activities in the field of librarianship. I am board member of the University and Research Librarians Association Medicine and Health Sciences Platform. I am in contact our colleagues involved in the field of medicine and health sciences in Turkey. Primarily EAHIL to publicize their

	<p>work and will take place on the efforts to increase the number of our members in Turkey.</p> <p>Also, encouraging cooperation between libraries; to share the knowledge I have acquired on the development and application of new technology related to libraries; providing healthcare information with high-evidentiary information; to carry out cooperation activities between national and international library associations; I would like to take part in activities to encourage cooperation with the World Health Organization (WHO) and other relevant national and international organizations.</p>
<p><i>What I think are the most important issues for European health information professionals in 2019-2022</i></p>	<p>I think the most important issues for European health information professionals in 2019-2022 are the topics I shared below.</p> <ul style="list-style-type: none"> Supporting research and researchers in pandemics Online access to library services Future of Health Innovation Open access Open data Open knowledge Open Science Medical data Big data Research data and support Research Data Management Health Informatics Medical Informatics Bibliometric Analysis
<p><i>My one-line statement for my election campaign</i></p>	<p>Progress with Collaboration</p>
