

EAHIL Council Election - Candidate Statement	
<i>Country</i>	Turkey
<i>Name</i>	Ertaç Nebioğlu
<i>Affiliation</i>	Health Sciences Library, Koç University
<i>My professional education and experience</i>	I graduated from Istanbul University Information and Document Management Department in 2012. In 2013 I started to work as Branch Librarian at Koç University School of Nursing Library. Following the opening of the Koç University Hospital in 2015, the library has been extended and named as Health Sciences Library. Currently, I work as the Head of Koç University Health Sciences Library.
<i>What I think is special about EAHIL</i>	EAHIL is special to me for the way that it creates a space for health science librarians and information professionals to collaborate, exchange information, and support each other in an international environment. In addition, I have attended three EAHIL conferences since 2015, and I have personally experienced the sharing and cooperation between the members. And these shared experiences have enriched my work and motivated me to expand and develop the services we offer as a library.
<i>What I expect to contribute to EAHIL Council</i>	Koç University is a leading institute in Turkey and its library has introduced EAHIL to Turkish medical librarians' community back in 2011. The annual workshop, although it was before me has been organized in İstanbul by my fellow librarians. Based on this background story, I would like to serve as the connection point between EAHIL community and my Turkish colleagues.
<i>What I think are the most important issues for European health information professionals in 2025-2028</i>	I think the following topics will be on the agenda of health librarians in the coming years: <ul style="list-style-type: none"> • Integration of AI in education and research • Telemedicine and Digital Health • Systematic Review and Meta Analysis • Data Curation and Management • Climate Change & Sustainability • Open Access and Scholarly Communication • Open Educational Resources • Interdisciplinary collaboration
<i>My one-line statement for my election campaign</i>	Collaboration and sharing make us stronger.
