

EAHIL Council Election - Candidate Statement	
<i>Country</i>	Netherlands
<i>Name</i>	Chantal den Haan
<i>Affiliation</i>	OLVG Hospital, Amsterdam
<i>My professional education and experience</i>	I am trained as a librarian and have over 18 years of experience working in a hospital library. I work on consortia licenses, but also on systematic reviews and all general library tasks.
<i>What I think is special about EAHIL</i>	The community! I love how everyone is sincerely interested in each other's work experiences, and always constructive and prepared to think along.
<i>What I expect to contribute to EAHIL Council</i>	As a librarian working in a non-academic hospital, I expect to be able to give input from a group that has to 'do it all', from lending books to giving review support, compared to the often very specialised academic librarian.
<i>What I think are the most important issues for European health information professionals in 2025-2028</i>	I think keeping up to date with technological advancements like AI is going to be paramount. Also, having enough professional development opportunities to make and keep our profession interesting for both new and experienced librarians and information specialists.
<i>My one-line statement for my election campaign</i>	I look forward to representing the voice of the Dutch hospital library community.
