

EAHIL Council Election - Candidate Statement	
<i>Country</i>	Republic of Moldova
<i>Name</i>	Olesea Dobrea
<i>Affiliation</i>	Nicolae Testemitanu State University of Medicine and Pharmacy of the Republic of Moldova (Nicolae Testemitanu SUMPh)
<i>My professional education and experience</i>	BA degrees in library and information science (LIS) and MA Infodocumentary institution management. I am currently deputy director of the Scientific Medical Library, Nicolae Testemitanu SUMPh and MD, member of the Association of Librarians from the Republic of Moldova. Since 2007, my LIS research interests have mainly focused on automation services in library; access to health information resources; digital literacy; scientometric, bibliometric and altmetric services in academic libraries; scientific culture of researchers for open science, open access and open data; information literacy in academic libraries. I participated in national and international level projects, such as: Tempus Project “Modern Information Services for improvement study Quality (MISISQ)”, Strengthening Research Management and Open Science Capacities of Heis in Moldova and Armenia (MINERVA), Boosting engagement of the Republic of Moldova in Open Science: methodological and applied support etc. I have attended national and international conferences since with presenting papers.
<i>What I think is special about EAHIL</i>	EAHIL offers professional development opportunity for medical librarians and information specialists, brings together health information specialists from all European countries and other countries of the world. It is a good platform for sharing experience and best practices.
<i>What I expect to contribute to EAHIL Council</i>	My presence in the EAHIL Council means involvement, contribution, information, representation and collaboration. I will encourage more librarians and health information specialists from Republic of Moldova to become members of EAHIL.
<i>What I think are the most important issues for European health information professionals in 2025-2028</i>	The challenges of being a librarian are keeping up with trends and technologies, quickly adapting to changes occurring in society, in the scientific and research environment, ethical use of artificial intelligence, redefining and renewing the role in the community.
<i>My one-line statement for my election campaign</i>	Be in step with the Latest Trends in Library and Information Science Education and Research for a healthier Europe through collaboration, innovation, and integrity!
